## HERBS PRESENT IN THE PRODUCT

### DAMIANA

The plant has an antidepressant and tonic-stimulating action. It stimulates the spinal nerve centers that control the function of the sexual organs. In men, it acts on the erection center located in the sacral-pelvic parasympathetic nervous system. In women it strengthens the hormonal system in case of dysmenorrhea, amenorrhea and menstrual pain. Its phytocomplex is therefore able to restore sexual desire in both male and female.

### Alato 14

It is called "grass of love" or "wood of power" and has been used since ancient times in folk medicine to deal with disorders related to the sexual sphere, menstrual pain, the reduction of cognitive functions typical of old age and physical and mental tiredness. Muira puama determines a general state of wellbeing and has a revitalizing effect, which leads to an increase in the body's vigor. It acts as a neuromuscular tonic, improving symptoms related to depression, anxiety, exhaustion and loss of appetite. It has also a positive effects on memory.
